

# ENOUGH FOR EVERY TABLE

“For I was hungry and you gave me something  
to eat, I was thirsty and you gave me something  
to drink, I was a stranger and you invited me in.”

Matthew 25:35

# HUNGER HAS NO PLACE AT GOD'S TABLE

Around the world, the question of “Will there be enough food?” shapes daily life for countless families. Crises like conflict, extreme weather, and economic instability have made hunger an increasingly complex challenge. **Hunger is more than a lack of food; it's a lack of stability and opportunity that keeps families from thriving.**

That's why World Renew walks alongside global communities to address and end hunger at its roots. Our work focuses on lasting change—helping families grow nutritious food, earn stable incomes, and become more food secure for the future. By equipping people with tools and training to end hunger, parents are able to feed their children. Farmers gain skills and resources to cultivate their land. **Entire communities move from vulnerability toward resilience.**

This is a response shaped by faith, compassion, and justice. Scripture tells us that when Jesus fed the crowd of 5,000 people, everyone had enough, and there was more to spare. That same hope still guides us today. **When God's people come together to help end world hunger, families experience dignity instead of desperation, and possibility replaces fear.**

While the scale of the current global hunger crisis feels enormous, your support makes a real difference. **By giving to World Renew, you help ensure that more families can grow and harvest the food they need.**

Hunger has no place at God's table, and together, we can create a world where there is truly enough for every table.

Please give generously at [worldrenew.org/worldhunger](https://worldrenew.org/worldhunger) or in today's offering.

Thank you for renewing hope with us!
