

Joy TO THE WORLD

“Every good
and perfect gift
is from above...”

James 1:17a

*Shida,
Tanzania*

Sharing the Gift of Hope

AT CHRISTMAS, we celebrate the hope we have in Jesus—the greatest gift ever given. Inspired by this same hope, World Renew comes alongside families around the world as they work to overcome poverty and build brighter futures.

Mothers like Shida (pictured on the front) and Damari know about creating a more hopeful future for their families. For years, Damari's family struggled with poor nutrition. She worried deeply about their well-being but didn't know how to make lasting changes.

In places like Tanzania, World Renew works with local partners to help families improve their food security, health, and nutrition. Damari began attending trainings through a World Renew partner where she learned about kitchen gardens and received vegetable seeds. She was inspired to take action and establish her own garden at home.

Over time, Damari's garden flourished, and so did her family. Her children became healthier and began doing better in school. Damari didn't just keep her new knowledge to herself—she started sharing seedlings and planting techniques with others, ensuring her entire community grows healthier together.

When you join World Renew in sharing hope with people like Shida and Damari, meaningful change occurs. One small step can grow into a brighter future for a family—or even an entire community. **This Christmas, will you give a gift that helps families take that step and renew their hope?**
